Foreword

It is the purpose of an annual to recapture our school days. As we look at this picture showing A.H.S., many of us will remember the enduring friendships formed there, the pleasantest of hours formed there, and every fine quality of head and heart acquired there. We will remember the noise of banging lockers and ringing bells, the note passing in study hall, and the lesson-explaining teachers. For a serious viewpoint we will remember it was there at A.H.S. we were given the opportunity to prepare for our future. We learn this not only by the subjects taught, but by the participation in the various extracurricular activities. Everyone is given the chance to begin what they want to do with their life. Some excel; some fail.

As we look at A.H.S. we realize our school system is a very important part of the community. It is training her students to become better citizens to meet the needs of society.

So with these thoughts in mind, we, the 1961 ARCHER Staff, present this annual to the A.H.S. students, faculty, and alumnae, and to the Antwerp community and businessmen. We dedicate it to you, the reader, as a memory book.

Like Buck in Jack London's famous novel, man hesitates between "the call of the wild" and "the call of man." We do not criticize Buck as his destiny was to be a dog. It is man who fails when he attaches himself to materialistic doctrines thus throwing him back into slavery from which he has been trying for centuries to liberate himself.

Liberation and progress of all people can only be obtained by the improvement of the individual. This is why education and instruction are such important instruments. Education gives the individual certain fundamental principles which are accepted by all nations of the world. It directs his action, inspires his behavior, and aids him to master himself. To master himself he must fight himself; to fight himself he must know himself and if he really knows himself he will learn indulgence and the walls of prejudice which separate him from his brother will crumble and he comes a step closer to the attainment of human dignity.
